Recently HEPROFORUM changed name to HEPRO Community, or HEPROCOM in short. The change is only reflected in the logo and the name of the website.

Although www.heproforum.net will still exist, the official name of the online resource is now HEPRO Community, and the official web address is www.heprocom.net.

HEPRO Community will continue to be a resource website for anyone interested in the HEPRO project and its results. The website will contain the same information as before.
